FUTURE LEADERS EXCELLENCE PROGRAMME (FLEX)

Self, Team, Organisation, Society and World

OVERVIEW

In this disrupted business universe, artificial intelligence is seeping into traditional leadership disciplines. This creates the need for leaders to prepare better for the future. Through Connecting with the stages of Leadership Development encapsulating the complete journey from Leading Self, to Leading World such connectedness is achieved. This includes the transition from the individualist nature of leadership to a more-collective focus and at the same time consider the fusion between People, Technology and The Environment. Supporting the readiness of our future leaders to take on this mantle of collective leadership, we prepare them with a new vision of leadership. Enabling them to create a different roadmap and pathway for "what" leadership might look like and "how" they can get there.
