LEADERSHIP AND THE NEXT GENERATION

Handing Over the Baton

OVERVIEW

Each new Generation brings with it different and creative ways of doing things better. They tend to challenge the status-quo and ask questions of “why things are done the way in which they are”. This course aims to channel this Curious, Agile and Learning Mind Set of the next Generation into a Passion to create a better tomorrow, but in a structured manner. The course covers the main Leadership Qualities required for the Future, Empowering the next Generation Leaders with the ability to Synergise Physical, Biological and Technological Systems.

OUTCOME

- ◎ Develop Foresight and a view on future trends
- ◎ Challenge assumptions and the current way of doing things radically to ensure relevance in the future
- ◎ Deepen level of self-awareness; build conscious competency of self and relationship management
- ◎ Understanding how to deal with the next Industrial Revolution Challenges in multicultural work environment embroiled in technological challenges
- ◎ Build the foundation of a culture of trust which encourages experimentation, appreciates failure and celebrates success
